

SPECIFICATIONS

ABATROS® Box

- Dimensions (H x W x D): 112 x 32 x 80 cm
- Weight: 85 kg
- Material: polyester reinforced glass fibers
- Sealing: IP 25
- Insulation: Double
- Type of output current: Pulse
- Voltages: 80 to 200 V, 4 positions
- Power: 4 kilowatts at all voltages with a generator at 6 kVA
- Safety: Electronic and electromechanical circuit breakers.
- Digital LCD indicators: voltage and power.
- Remote control: by contact on anode carrier stick or independent remote (control by hand or foot).
- Method of transport: by frame in stainless steel with wheels.

Generating unit 6 kVA

- Dimensions (L x W x H): 68 x 94 x 65 cm
- Weight: 94 kg
- Misc: Stainless steel frame, polyester cover, wheels
- Insulation: Double
