

SPECIFICATIONS

Tanks, high-end models

Made of black HDPE, they have a half cylindrical shape. The tanks are graduated in cm to facilitate measurement of the fish

- Tank of 55 cm

Dimensions (LxWxD): 55 cm x 16 cm x 8 cm

Volume of water: 1/3 height: 1 l

Volume of water: half height: 2.2 l

This tank is the most used because it allows to anaesthetize the fish up to 50 cm length.

- Tank of 105 cm

Dimensions (LxWxD): 105 cm x 28 cm x 14 cm

Volume of water: 1 / 3 height: 6 l

Volume of water: half height: 12.5 l

Tanks, low cost

Made from PVC, they have a trapezoidal shape with an average width of 12.5 cm and a height of 11 cm. We produce on request any length between 50 cm and 1.5 m. The tanks are graduated in cm to facilitate the measurement of fish.

Generator

It is settled in a small suitcase in solid copolymer shockproof and waterproof.

- Generator dimensions (LxWxH) 34 x 29.5 x 15.2 cm
- Total weight 8 kg with accessories
- Sealing: IP 67
- Indoor Power Supply 12V battery 7A.h
- Outdoor power supply: on car cigarette lighter socket
- Safety: Fuse protection
- Battery status indicator by galvanometer
- Battery End of autonomy indicator by beep
- Output voltage from 7.5 to 15 - 30 - 45 - 60 - 75 V
- Electric field: all values between 0.1 and 2.5 V / cm
- Maximum power: 25W

Accessories delivered with generator

- 1 battery charger:

Dimensions (H x W x D) 32 x 90 x 45 mm

Weight 115 g

Material: Plastic

Power supply: 230 V

Insulation: double.

Charging time: about 10 hours.

Charge termination: automatic with LED indicator.

- 1 cable for external power supply: 5m electrical cable for connecting the generator to the cigarette lighter of a car in order to obtain longer autonomy.
- 2 electrical cables to connect the generator to the tank.
- 1 pair of insulated gloves to handle the fish in the tank.
